ADDITIONAL SERVICES – AMAZON LISTING – OPTIMIZATION LAUNCHING

Product Onboarding

The moment that you have developed a new product, you would like to launch it and sell it in different places immediately. AKTI ONLINE PREP CENTER can be the help fulfill your need in order to have the pages that will make customers read and become motivated to purchase your items. We can give the product listing services that you have always wanted. You can expect your products to be visually appealing complete with details that will inform people about the things that they want.

We have an expert team aware of the product upload guidelines of Amazon. Whether you would like to add new products or you want to improve the ones that you already have, you can rely on us. You can count on the product listings that we make to attract new customers. We make sure only to upload images that are clear and bright. We make sure that your prices are competitive. In fact, we can do a check on your competitors to see their pricing and show you our report after. There are only credible reviews available too so decision making for your business will be easier to accomplish.

Our Amazon Product Listing Services - Best for Managing Amazon Product Detail Pages

Our **Product onboarding services** are worth checking out. We can make sure that your products will be ranked first when people search for keywords that are related to the products you are selling. We can make sure that your sales will be enhanced because of your prominent presence in the marketplace. It does not matter whether you have a lot of items or not, all of these items can be uploaded in bulk.

The **Amazon data entry services** that we offer are the following:

Creating product titles that are not only keyword rich but are also effective.

Editing images to ensure that they are eye catching and clear enough for customers.

Enabling reviews that are credible that at the same time, product features and benefits will be highlighted for the whole review.

Creating product features, the attributes and the technical specs of the items available.

Managing other tasks such as checking out inventory and customer orders.

Writing descriptions of the products that will entice customers to purchase.

Placing all the products in proper categories.

Amazon Product Photography Services

We know that some private label sellers don't always see their actual product. Asking suppliers to ship 1-2 products to your address can be costly if you need them only for product pictures. That's why in addition to our low-cost fba prep and ship services, we also offer photography services. AKTI STUDIO have facility to take product photography as per amazon requirements.

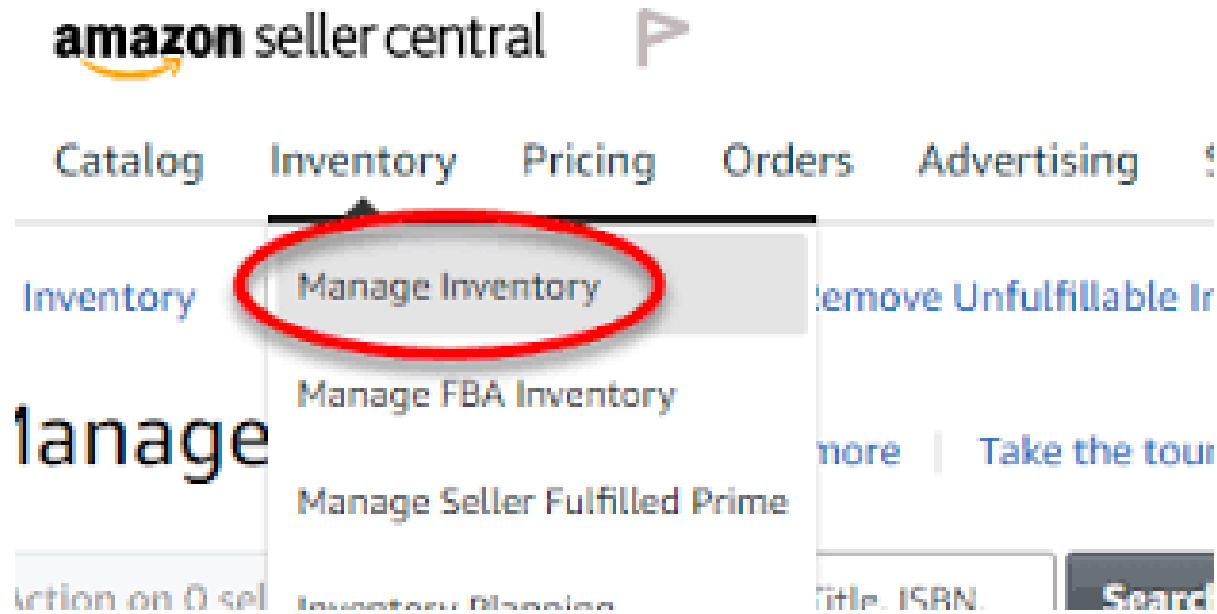

We will provide you white-background picture that meets Amazon requirements. We created multiple packages cover your image needs for your listings.

Update Inventory in Seller Central & Create Shipping Labels

Once your Prep Services completed And plan to Ship FBA, next step to update your Seller Central and Create Appointment with amazon and ready for Ship to FBA
