

Dear all,

The Global Labour University in collaboration with the ILO is offering FREE courses that are available online and can be completed at your own pace. These are very informative and useful should you be interested in the following topics:

- i) International Labour Standards: How to Use them
- ii) Fair Wage Strategies in a Global Economy
- iii) Decent Work in Global Supply Chains

I once again share and encourage partners and stakeholders to kindly enrol and pass on the link to their members and affiliates.

**The link is accessible here: <https://glu.iversity.org/en>**

Kind regards  
Rabia
